STATE OF MONTANA ADMINISTRATOR OF GROUNDWATER CODE RECEIVED OFFICE OF STATE ENGINEER

MONTANA WATER RESOURCES BOARD

NOV 3 v 1967

DECLARATION OF VESTED GROUNDWATER RIGHTS (Under Chapter 237, Montana Session Laws, 1

in effect prior to January 1, 1962, as follows:

1. We, RODPH and LOIS FOSTER and ROBERT E. and MARLENE FOSTER, tenants in common, all of Joplin, Montana, County of Liberty, State of Montana, have appropriated groundwater according to the Montana laws

- 2. The beneficial use on which the claim is based on our homes and ranches;
 - 3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1930 and in continuous use on the following described property since that date:

Southeast & of Section 9, Township 33 North, Range 7 East (Robert E. and Marlene Foster)

and

Southwest & of the Northeast & of Section 17, Township 33 North, Range 7 East due East across the said Southwest & of the Northeast & and continuing due East across the Southeast & of the Northeast & to the Section Line between Sections 17 and 16 of Township 33 North, Range 7 East MPM. (Ralph and Lois Foster)

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

Sec.

- The amount of groundwater claimed (in miner's inches or gallons per minute) 1000 Gallons per minute.
 - If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: On the lands above described.
- 6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Pump
- The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: About 1930.
- The depth of water table: 15 feet.
- 9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Dug well - 4 feet diameter with tunnel underneath.
- 10. The estimated amount of groundwater withdrawn each year: 2,500,000 gallons per year.
- The log of formations encountered in the drilling of each well if available: Sand rock - Colorado blue shale.
- 12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book
